OSARK PLANT FARMS

SPRINGFIELD, MISSOURI

Highest Quality Nursery Stock at Lowest Possible Prices.

We make every effort to grow and produce our own Nursery Stock—only the best.

We sell direct from our nursery to you. We do not have salesmen paid on commission basis—makes less expense to you.

Some advantages of buying from us—

Our organization is locally owned and operated by men who have been in the nursery business for years and understand every phase of the operations.

In calling at our nursery or ordering from this catalogue you have the advantage of seeing your plants growing in the field.

Our plants are fresh dug, not permitted to dry out before they reach you.

Personal services—

We are always glad to assist you in any way possible. Be glad to help you on any planting problem that you might have if you will phone or write us—at no charge.

Plant services—

We have a spraying and trimming service. We will give your plants same expert attention—spraying, trimming and feeding—as our own nursery receives at reasonable charge.

Our Guarantee

We offer only first grade stock and guarantee every plant we ship to be of first quality, sturdy and free from disease, and to reach you in good growing condition.

We exercise care and diligence to have our varieties true to label and sell all our stock with the express guarantee that we will, on proper proof, replace any that may prove otherwise, or refund the amount paid for the same.

In the case of loss, assuming the plants have been promptly and properly planted and watered as conditions require, we will replace at one-half the original purchase price, if reported by June 1st following purchase and your report accompanied with your remittance in the amount of one-half the original purchase price.

In no event will we be responsible for a sum greater than original purchase price.

SKILLED LANDSCAPE DEPARTMENT

EXPERT SERVICES

At no extra cost or obligation, bring or mail to our office a sketch of your home, showing dimensions plus picture, if possible.

We will be glad to assist you in selection of types and sizes of plants most suitable and economical. We have a staff of trained men qualified in every way to help you, thus avoiding many otherwise costly mistakes.

BROADLEAF EVERGREENS

ABELIA GRANDIFLORA

These Evergreens are unsurpassed for Foundation Planting and year around beauty, since they hold their leaves in the winter time. Plant them liberally in shade or sun for natural appearance in winter just the same as summertime beauty.

All of our Broadleaf Evergreens have been heavy sheared and transplanted specimen plants. Not to be confused with light grade mail order plants.

Abelia Grandiflora. A hardy low growing Evergreen flowering shrub with glossy dark green leaves contrasting effectively with the red tinged bark. Blooms profusely all summer with white tinged pink, bell-shaped blossoms. Grows 3 to 4 ft. tall but can be sheared to any desired shape. Most beautiful plant in any landscape. Plant several.

12 to 18 inch, \$1.98; 18 to 24 inch, \$2.49;
24 to 30 inch, \$3.65.

Euonymus Patens. One of the most attractive broadleaf Evergreen shrubs. Leaves are a bright green, while in fall numerous orange, bittersweet berries add to its charm. Luxuriant of growth and naturally symmetrical in shape. Thrives in both sun and shade. Use as a specimen plant, background or hedge—can be trimmed any way desired. 4 to 5 ft.

12 to 18 inch, \$1.98; 18 to 24 inch, \$2.49; 24 to 30 inch, \$3.65.

Nandina. Our most interesting plant that changes color with the season. Foliage is bright green in summer, turning to vivid red in winter. In spring panicles of white flowers are produced and in fall clusters of brilliant red berries decorate the entire landscape. Grows 3 to 5 ft. but can be pruned to any height. Mix with other shrubs for year around beauty.

12 to 15 inch, \$2.25; 15 to 18 inch, \$2.75; 18 to 24 inch, \$3.50.

Evergreen Barberry (Julianae). A fine bush form with glossy leaves. Foliage much larger than the Japanese barberry. Yellow blooms in spring. Balled and burlaped, 18 inch, \$4.50.

Azaleas. Azaleas are, without doubt, the most beautiful flowering plants in the South. We are fortunate in having the very best Kurume varieties which are hardy in all sections of the South and will stand winters much farther north by mulching. They stood 14 below zero here last winter. Azaleas prefer partial shade and acid soil. Should be used on east or north side for best results. Roots are near surface and should be kept cool and damp by using 2 to 4 inch mulch of acid peat moss. Do not cultivate. Add Aluminum Sulphate each spring, 1 or 2 pounds per plant. An ideal fertilizer is Cottonseed Meal but do not put in hole.

12 inch plants balled, \$2.75 Potted. Also larger sizes.

Pyracantha Lalandi. The most hardy Pyracantha. Picturesque upright grower with attractive white flowers followed by fiery orange-red fruits. You have probably noticed thousands of these beautiful plants on the highways of Texas. Gallon Cans, \$1.89.

Japanese and Chinese Holly—Shrub types of hollies that are very suitable plants; have types of waxy leaves that remain through the winter. Low growing, spreading type plants suitable for shade or sun. Priced dug ball earth, \$4.95.

RED LEAF BARBERRY

NANDINA

Following Prices Do Not Include Labor Planting

Hedges are very popular as screens for outdoor living rooms—to outline property lines and give you privacy where needed. They can be planted in Flowering Shrubs and with proper selection of plants you will have blooms from the various varieties throughout the entire season. The Flowering Shrubs require less trimming than the formal hedges.

All Hedge plants that we offer are hardy, field grown plants, trimmed to give the plant a number of limbs and good root systems. 2 and 3 year plants—not to be confused with light one-year plants.

Evergreen Privet (Amur River South). Hardy as far north as Kansas City, Missouri. This Privet has dark green foliage which will hold its foliage all winter long. Plant 9 to 12 inches apart.
12 to 18 inch, 10 for \$1.60; 25 for \$3.20. 18 to 24 inch, 10 for \$1.95; 25 for \$4.50. 2 to 3 foot, 10 for \$3.00; 25 for \$6.50.

Red-Leaf Barberry. Same habit of growth as above but with bright red foliage all summer. 15 to 18 inch, 65c; 6 for \$3.50; 18 to 24 inch, 90c; 6 for \$4.95.

Spirea, Van Houttei (Bridal Wreath). Makes a beautiful untrimmed hedge and is the most widely planted shrub in the United States. 12 to 18 inch, 10 for \$3.25; 25 for \$6.95; 18 to 24 inch 10 for \$4.25; 25 for \$8.75; 2 to 3 foot, 10 for \$5.50; 24 for \$9.95.

Honeysuckle, Tartarian. One of the most satisfactory tall growing hedge plants. It is strong, vigorous and hardy and one of the first shrubs to leaf out in the spring and retains its foliage well into the winter. The small, pink blossoms are followed by bright red fruits. Normally grows into a hedge 6 to 12 feet and will thrive in most any soil. Plant 3 feet apart. 2 to 3 foot, 10 for \$6.00; 25 for \$13.95.

Plant Boysenberries 8 to 10 feet apart each way and have your own fruit for the table, canning and freezing. **10 for \$1.75.**

BLACKBERRIES

Eldorado. A valuable Blackberry for our northern climate. Berries large, jet-black, ripen well together and borne in large clusters; they are sweet and delicious, have no hard core and keep well after picking. **No. 1 plants, 10 for \$1.65.**

GRAPE VINES

Better Bearing Crops of Better Fruit. In planting Grapes you make an investment that will last a lifetime. Our plants are all heavy rooted, disease free stock.

Moore's Early. Ripens 10 days before Concord; fancy black-purple table Grape resembling Concord in appearance but of finer quality; not quite as thrifty a grower as Concord.

Concord. Most popular and widely planted variety; will adapt itself to almost any climatic or growing conditions. Large compact bunches, purplish black with a rich bloom; skin is tender but sufficiently firm to carry to distant markets. The old favorite for juice, wines and jellies.

RASPBERRIES

Cumberland. Ripens midsummer and bears through the late season, producing profitable crops of large, firm, round, glistening black berries that "ooze" with rich flavor. In big demand for fresh desserts, canning and freezing. Plants are self-supporting and non-suckering. Hardy, thrifty growers; will thrive anywhere. **10, \$1.75; 24, \$3.25; 50 or more at \$10.50; 100 at \$10.50.**

Latham. Large size and heavy yield. The most profitable Red Raspberry. Thrifty, healthy, hardy, easy to grow. A money maker if grown commercially or as a tasty treat in home garden. Often yields as high as 500 crates to an acre.

1-Year, Heavy, 10, \$1.75; 25, \$3.75; 100, \$12.50.

BLAKEMORE

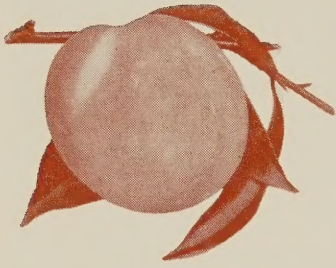

STRAWBERRIES

Blakemore. The ideal commercial variety. Most widely planted berry in the U.S.A. A cross between Premier and Missionary. Berries of medium to large size, bright red with extra good flavor. Its firmness and long keeping qualities make it very popular for shipment to distant market; thrifty grower, always makes a heavy fruiting row.

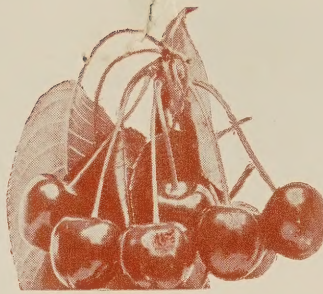

Senator Dunlap. The old standby variety. The best flavored Strawberry of them all. The old home garden standby; can be grown successfully with a minimum of care. It is a favorite with housewives because of its superb sweet flavor and canning qualities.

Blakemore and Senator Dunlap Prices, Thrifty Healthy Plants,
25 for \$1.15; 50 for \$1.75; 100 for \$2.95; 1,000 for \$17.50.

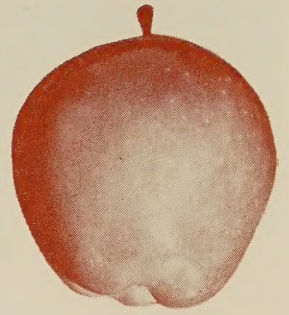

Gem. The dependable Everbearer. Gem will start to bear the first season planted and will bear large crops until frost. These berries bring the highest prices in the markets or on a roadside stand. There is a great opportunity for making money by planting Gem. Get your patch started this season; they will give you enough berries for your own family and some to sell to your neighbors or ship to the city markets. Bears 100 days after planting. **25, \$1.25; 50, \$1.95; 100, \$3.75.**

POTTED PLANTS GROWN IN CLOVERSET POTS

We have been growing plants in patented Cloverset Pots during the last seven or eight years and have found from continuous use that the removable pots are the best method of growing and handling all types of Perennials, Roses, Shrubs, Vines, Small Shade and Ornamental Plants, etc.

The plants become established in these pots and when ready to transplant all that is necessary to remove the plant is to cut the side of the pot and transplant to new location. Dirt remains

on the roots and the plant is never disturbed and the growth is not interrupted.

Never too early or too late to plant the plants grown in these Tar Paper Pots.

Visit our Nursery today, as we always have excellent selection of Plants growing in these Cloverset Pots. We have gained more satisfied customers through the use of these Cloverset Pots than any method we ever used.
